

## EMTA Installation Kits

**FOR FAST AND EFFORTLESS DIGITAL VOICE INSTALLATIONS**

### application

With the increase of digital voice installations, MSOs are required to perform more installations faster. For the MSO, this can mean increased truck roll expenses and the added expense of hiring and training additional technicians to keep up with the demand. The challenge is how to meet subscriber installation timetables while keeping expenses down.

ARRIS EMTA installation kits help streamline digital voice deployments and contain everything needed to ensure efficient and consistent installations.

### benefits

- Provides faster installations
  - Everything needed is contained in the kit
  - Cordless phones eliminate internal wiring issues and reduce installation time
- Reduces truck roll costs
  - Easy to use kits enable installations to be performed by non-technical personnel or subscribers
- Ensures product quality and control
  - Promotes uniformity with MSO-specified components
  - Cordless phones are tested with EMTAs

# EMTA Installation Kits

FOR FAST AND EFFORTLESS DIGITAL VOICE INSTALLATIONS

Basic kits consist of the following components:

- ▣ ARRIS EMTA
- ▣ Cordless phone system
- ▣ Connectivity kit
  - ▣ Coaxial jumpers with compression connectors, high-performance 2-way splitters
- ▣ MSO user's guide/instructions
- ▣ Tuck box with MSO branding label

Kits can also be customized based on MSO requirements

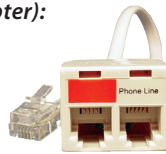

**Porting switch:**

Automatically switches all the phones in the home to the MSO service when the porting is completed.

**WARP Adapter (Wire Access Reverse Polarity Adapter):**

Eliminates having to remove wallplates for wire access and re-wire jacks to correct reverse polarity.

**Customized packaging:**

ARRIS has the ability to design 4-color packaging based on an MSO's specifications.

ARRIS sales representatives work closely with the MSO to help determine the kit configuration that best meets their requirements.

Fulfillment can be tailored to meet the needs of each MSO. ARRIS has the experience and capabilities to:

- ▣ Ship "direct to subscriber" for self-installations
- ▣ Bulk ship to MSO for tech or sales assisted installations
- ▣ Ship directly to retail centers or kiosks
